SKILLS

Soft Skills

- Project Management
- Teamwork
- Time Management
- Effective Communication
- Critical Thinking

Programming Skills

- Languages:** Java, C++, C#, PHP, JavaScript, Python, SQL, HTML, CSS
- Frameworks:** React.js, Express.js, Flask
- Tools:** VS Code, NetBeans, Visual Studio, Android Studio, Git/GitHub, XAMPP, MySQL Workbench, phpMyAdmin
- Databases:** MySQL, SQL Server
- APIs & ML:** RESTful APIs, Python (pandas, scikit-learn), Flask ML services
- Concepts:** OOP, SDLC, Full-Stack Web Development, API Integration, ML Model Deployment

LANGUAGES

- English
- Sinhala

PROFILE

I am a motivated and detail-oriented IT graduate who has successfully completed a BSc (Hons) in Software Engineering at Cardiff Metropolitan University via ICBT (results pending). My strongest interests lie in full-stack development, combining both front-end and back-end technologies.

I enjoy designing and implementing scalable, user-friendly web applications from concept through deployment, and I am eager to apply my analytical mindset and technical skills to build robust, efficient, and user-focused digital solutions.

EDUCATION

- | | |
|---|-------------|
| BSc (Hons) in Software Engineering - Results Pending | 2024 - 2025 |
| • Cardiff Metropolitan University (UK) - ICBT Campus, Nugegoda. | |
| Higher Diploma in Computing & Software Engineering - Completed | 2023 - 2025 |
| • Cardiff Metropolitan University (UK) - ICBT Campus, Nugegoda. | |
| G.C.E. Advanced Level - Passed | 2020 |
| • Mahanama College (Colombo 03) | |
| G.C.E. Ordinary Level - Passed | 2017 |
| • Sri Rajasinghe Central College (Kotikawatta) | |

PROJECTS

ThyroTrack - Thyroid Cancer Risk Prediction System - React.js, Express.js, Flask, MySQL (Individual Project)

- Developed a full-stack AI-powered web platform for thyroid cancer risk prediction and patient management. Integrated ML models with explainability features and clinical support tools.
- Key Features: Risk prediction via Random Forest/SHAP, patient record management, progress and trend tracking, SHAP-based explanation for predictions, and automated report generation.

ModaLane E-Commerce Website - TypeScript, CSS, JS, HTML (Individual Project)

- Developed a responsive e-commerce site with a modern UI and clean TypeScript codebase.
- Key Features: Responsive navigation, hero section with CTA, testimonials, benefits, brand story, and integrated shopping CTA.

MegaCityCab Service - Java EE (Individual Project)

- Developed a Java EE web application for cab booking and admin operations.
- Key Features: User registration/login, chatbot, profile management, booking history, and admin dashboard.

Pharmacy Management System - HTML, CSS, PHP, JS, SQL (Group Project)

- Developed a web application to manage medicine stock, prescriptions, and sales.
- Key Features: Medicine tracking, billing system, and prescription management.

Portfolio - React.js Web Developer Showcase (Individual Project)

- A modern and interactive portfolio built with React.js + Vite to highlight web development skills.
- Key Features: Smooth animations (GSAP, Framer Motion), dynamic project showcase, responsive design, and EmailJS contact form.
